EDITORIAL

Members should notice the announcement of our secretary that the next Annual Meeting will be held in Cincinnati in connection with the meeting of the American Association for the Advancement of Science, during the week in which the first of the year occurs. We ought, even at this early date, to be making our plans to attend this meeting. We may expect many of our members who live so far south that they have not felt able to attend the meetings that have been held in Chicago to attend this meeting, and we want to meet them.

According to his usual custom, the editor will be on the road with a party of students during the summer beginning on June 21st and will in all probability not be back in Oberlin until the middle of September. But letters may be addressed to 143 West College Street, Oberlin, O., and those that are urgent will receive attention. Generally speaking, it will be better to await his return home. But articles and notes intended for publication in the pages of the Wilson Bulletin may be sent in at any time.

We are pleased to note the vigorous prosecution of the bird-banding work, under the able direction of Mr. Baldwin and Mr. Lyon. So much of banding is certain to result in the collection of data that will be of invaluable aid in the further understanding of bird movements, at least, and almost as certainly in the advancement of our knowledge of their breeding and other habits.
